## JOINT MEETING BETWEEN ASHRAE & AEE

January 14, 2009

**Location:** Wyndham Garden Hotel Harrisburg/Hershey  
765 Eisenhower Boulevard  
Harrisburg, Pa 17111

**Schedule:** 5:00-6:00 Tech Session—Introduction to ASHRAE Standard 90.1  
6:00-7:00 Dinner  
7:00-8:00 Changes in 2007 standard and direction of 2010 version. Also a quick look at 189.1

### Description:

#### Tech Session-Introduction to ASHRAE 90.1 (Larry Kouma)

ASHRAE Standard 90.1 is a key document in the design world for energy design requirements and conservation. It is incorporated into almost all Building Codes through its inclusion in the International Energy Conservation Code (IECC) and many state energy codes. The Tech Session will serve as an introduction to those not familiar with Standard 90.1 and a refresher course for those who have been introduced to the Standard.

#### Program-Standard 90.1 in more depth (Larry Kouma)

Standard 90.1-2007 was adopted at the end of 2007 and is being included in the 2009 International Code Council's IECC. This part of the program will include what the goals for the 2007 version are and significant changes from the 2004 to 2007 version. We will also look at goals for the 2010 version and possible changes to reach those goals. If time permits there will be an update on Standard 189.1.
