

Energy Report

Newsletter for the Central Pennsylvania Chapter of The Association of Energy Engineers

Volume I, Issue I

August 2007

About the Central PA Chapter:

- Local Chapter meetings held throughout the year (except July & August).
- Monthly meetings generally include a speaker on a "hot" energy topic coupled with a plant tour.
- Network with industry peers.

Who is AEE?

The Association of Energy Engineers (AEE) is a nonprofit professional society of 8,500 members in 77 countries. The mission of AEE is *“to promote the scientific and educational interests of those engaged in the energy industry and to foster action for Sustainable Development.”*

AEE offers a full array of informational outreach programs including seminars (live and internet based), conferences, journals, books, and certification programs.

AEE's network of 67 local chapters meets regularly to discuss regional issues. AEE's roster of corporate members is a veritable “who's who” from the commercial, industrial, institutional, governmental, energy services, and utility sectors.

The *AEE Energy Insight* is a high-quality online newsletter that focuses on the accomplishment of the Association and its members. AEE also publishes three technical journals: *Energy Engineering*, *Strategic Planning for Energy & the Environment*, and *Cogeneration & Distributed Generation Journal*. These publications are complimentary to all AEE members.

The Foundation of the Association of Energy Engineers is a nonprofit organization that is dedicated to furthering education in energy and management. To date, the Foundation has awarded over \$480,000 in scholarships for use by outstanding students.

AEE is pleased to offer an exciting line-up of **conference/trade show events** for energy and facility professionals. These events, held throughout the continental United States, provide an excellent opportunity to find out more about the issues and marketplace developments that impact your decisions, and to see the latest technology trends, while you network with your industry colleagues.

- World Energy Engineering Congress
- Globalcon
- West Coast Energy Management Congress

AEE divisions offer another opportunity to meet the growing needs of professionals in the specialized areas of business, industry, and government.

- Alternative and Renewable Energy Development Institute
- Energy Services Marketing Society
- The Cogeneration and Distributed Generation Institute
- Facility Managers Institute
- The Environmental Engineers & Managers Institute

The Association of Energy Engineers is celebrating its 30th Anniversary.

**The mission of AEE is
“to promote the
scientific and
educational interests
of those engaged in
the energy industry
and to foster action for
Sustainable
Development.”**

We're on the Web!

The Central Pennsylvania Chapter of the Association of Energy Engineers is on the World Wide Web.

Visit our website at www.aee-centralpa.org for up-to-date information and news concerning the Central Pennsylvania Chapter. The website will contain information concerning schedule of events, meeting announcements, relevant AEE National News and information, contact information, and copies of the Chapter Newsletter.

About the Central Pennsylvania Chapter

Welcome to the Central Pennsylvania Chapter of the Association of Energy Engineers (AEE) organization. We are dedicated to helping our members and community implement energy efficient technologies to reduce expenses, improve the environment, and bolster our economy.

We invite you to join our local chapter to network with your industry peers, discuss projects, develop leads, encourage energy efficient design and discover new energy procurement strategies. Our chapter conducts meetings held throughout the year. Refer to the schedule or email one of the chapter contacts for more details. We usually have a guest speaker and discuss chapter issues.

The Central Pennsylvania Chapter is currently 'Under Development' which means that we are in the process of gathering signatures to petition the formation of the Central Pennsylvania Chapter. If you are interested in seeing the formation of the Central Pennsylvania Chapter of the Association of Energy Engineers, please contact one of the Chapter officers listed below for more information.

“We are dedicated to helping our members and community implement energy efficient technologies to reduce expenses, improve the environment, and bolster our economy.”

AEE Certification Programs

Since its inception in 1981, the Certified Energy Manager (CEM®) credential has become widely accepted and used as a measure of professional accomplishment within the energy management field. It has gained industry-wide use as the standard for qualifying energy professionals both in the United States and abroad. It is recognized by the U.S. Department of Energy, the Office of Federal Energy Management Programs (FEMP), and the U.S. Agency for International Development, as well as by numerous state energy offices, major utilities, corporations and energy service companies. AEE is proud to offer this and other credentials for professionals in the energy field.

For more information on AEE’s certification programs, visit the website at www.aeecenter.org/certification.

- Certified Energy Manager (CEM)
- Certified Green Building Engineer (GBE)
- Certified Lighting Efficiency Professional (CLEP)
- Certified Business Energy Professional (BEP)
- Certified Building Commissioning Professional (CBCP)
- Certified Sustainable Development Professional (CSDP)
- Certified GeoExchange Designer (CGD)
- Certified Energy Procurement Professional (CEP)
- Certified Indoor Air Quality Professional (CIAQP)
- Distributed Generation Certified Professional (DGCP)
- Certified Measurement & Verification Professional (CMVP)
- Certified Power Quality Professional (CPQ)
- Energy Manager in Training (EMIT)
